We can work with you whether you are doing a natural cycle or an assisted reproductive cycle. Whatever your preference, we will be happy to assist you in your goals.

Our office hours are by appointment only. We have evening and weekend appointments available.

Your first appointment will be 1 ½ hours and will include a comprehensive review of your medical history and an acupuncture treatment. Appointments after that will be 45 minutes.

For your first appointment, please bring the following documents:

Fertility Form (for female infertility only)

New patient Form (for all others)

Signed Informed Consent Form

Signed Financial Policies & Procedures Form

As for the amount of treatments, it will vary depending on what you are seeking to treat. People will respond to treatment differently. At each treatment we will assess where you are in your condition. Fertility issues can be treated at anytime in the cycle, however, it is best to start at the beginning of your cycle.

If you have any questions throughout your treatments, we will be happy to answer any concerns that you may have.

Sincerely,

Joyce Edwards, L.Ac.
